Prevent. Promote. Protect.

**Fond du Lac County
Health Department**

Dear Parent/Guardian,

Starting school is a big event in the life of every child. We all know good health is important to a child's success in school.

State law requires all students to have certain immunizations that protect your family and our community from serious diseases. **Please complete and sign the student immunization record (gold card) and return it to school on or before the first day of school.**

There is a student health form (lavender) for you to fill out. It allows you to share your child's health history.

It is recommended that your child have physical, dental and vision exams before starting school. Enclosed you will find forms to be filled out by your child's health care providers (blue-physical exam), green-vision exam, yellow-dental exam). Please return them to your child's school in the fall.

Thank you for helping us to protect your child's health. If you have any questions, feel free to call your child's school or our office, (920-929-3085).

Sincerely,

Kim Mueller, RN, MSN

Health Officer
